

Saadman Iqbal
Doj513
11319791
CMPT270-02

Status:

Every aspect seems to work fine and correctly (all operations on staff and the main menu), and is in the status of completely working with no flaws. The assignment itself did not take too long to finish, only about 6-7 hours. Overall this assignment was not too difficult, I just had to learn and get a grasp on JFrames.
